EDUCATION

Computer Engineering — Jaypee Institute of Information and Technology

Noida

June 2024 – Jan 2026

Senior Secondary (Class XII) - Shiv Jyoti Convent School

Kota, Rajasthan

2021-2022

ACADEMIC PROJECTS

MatchMyResume

Full Stack Developer+AIML

- Developed **MatchMyResume**, an automated job discovery platform built with Next.js and Python to streamline how candidates find and apply for relevant roles.
- Built an advanced NLP recommendation engine utilizing spaCy and TensorFlow to extract key skills and rank job compatibility based on semantic similarity.
- Designed scalable Python web scrapers to continuously aggregate thousands of live job and internship postings from platforms like Naukri and Internshala.
- Enhanced user success rates by building dynamic, role-specific PDF resume generators and integrating automated WhatsApp notifications for top job matches.

PrepArena

Full Stack Developer+AIML

- Engineered **PrepArena**, a full-stack educational platform (React, Django REST Framework) offering scheduled AI mock interviews and proctored testing.
- Architected a custom real-time proctoring engine using Python and OpenCV, analyzing frame-by-frame webcam feeds to automatically flag cheating behaviors like missing or multiple faces.
- Designed an interactive AI interviewer utilizing the Groq API for intelligence and the Web Speech API for dynamic, voice-driven text-to-speech interactions.

SKILLS & ACHIEVEMENTS

Skills: Frontend – JavaScript, React.js, Next.js

Backend – Node.js, Express.js

Database – MySQL, MongoDB

Data Analytics – Python, Pandas, NumPy, Matplotlib, Excel, Tableau, PowerBi

AI/ML – Machine Learning, NLP, scikit-learn, TensorFlow

Achievements:

- Participated in Smart India Hackathon (SIH) and various national-level hackathons.
- Completed a Data Structures and Algorithms (DSA) course by GeeksforGeeks with hands-on practice in arrays, trees, graphs, and dynamic programming.
- Solved over 300+ DSA problems across various coding platforms.

POSITION OF RESPONSIBILITY

Aroma IQ

Full Stack Web Developer Intern

- Developed and maintained responsive web applications using React.js, Node.js, and Express.js for product and user management systems.
- Designed and integrated RESTful APIs, ensuring seamless communication between frontend and backend services.

cr – The Robotics Hub, IIIT

2024 – 2025

Volunteer

- Assisted in organizing robotics workshops and technical events to promote innovation and hands-on learning among students.
- Collaborated with peers to mentor participants and guide them in robotics and automation-based projects.
